PROFESSIONAL SUMMARY

Computer Information Science student graduating December 2026 with experience in Linux environments, networking simulations, and cybersecurity labs. Seeking an entry-level cybersecurity or IT role to apply technical and analytical skills.

EDUCATION

Bachelor of Science in Computer Information Science
Lamar University — Beaumont, TX | Expected December 2026
Honors: Dean's List (Fall 2024, Spring 2025); President's List (Spring 2026)

Associate of Science in Biological Sciences
Lamar Institute of Technology | 2023

TECHNICAL SKILLS

- **Programming:** Java, C++, C
- **Operating Systems:** Linux/Unix, Ubuntu
- **Tools:** Git/GitHub, VirtualBox, Eclipse IDE, ns-3
- **Cybersecurity & Networking:** CSRF testing, password security concepts, TCP socket programming, congestion-control simulation
- **Languages:** English and Spanish (bilingual)

EXPERIENCE

Cybersecurity Intern | NUGA SYS S.A. de C.V. — Nuevo León, Mexico | 2026

- Completed internship assignments and gained exposure to digital forensics, facial-recognition technology, and security applications through technical discussions and demonstrations.
- Explored digital evidence acquisition concepts and specialized forensic technologies.

Retail Associate | St. Mark's Treasure House — Beaumont, TX

- Process customer transactions, assist shoppers, and provide English–Spanish translation support for coworkers and customers.
- Restock merchandise, maintain store cleanliness, and assist management with charity events and special projects.

TECHNICAL PROJECTS

CSRF Attack Simulation — SEED Cybersecurity Lab
GitHub: https://github.com/ArletteT3/csrf-attack-simulation-seed-lab

- Simulated forged requests against an Elgg application in a Linux lab and examined how CSRF tokens help prevent unauthorized actions.
